## Thousands of Thrifty Women Now Cook This Better Way With National Cookers

Saves Two-thirds the Time and Work

Produces Delicious Flavors

—The old expensive cooking methods have been abolished by thousands of women who know. They are now using the NATIONAL Pressure Cooker, which has become famous throughout the entire country.

This remarkable invention will cook a complete meal within a few minutes. Meat, vegetables and dessert can be prepared at one time, on one burner, over a low flame. For instance, chicken, pan-browned potatoes, lima beans, creamed onions, and individual custard pudding, in 25 minutes at 15 pounds pressure.

—The food requires no attention—cannot stick, scorch or burn, and the flavors do not blend.

—Each food cooks in its own juices, thus producing exquisite flavors. And all the nutritious and muscle building properties are retained. Cheaper cuts of meats can be more deliciously prepared in this way.

—Doctors recommend Pressure Cooked Food for Children and Invalids.

**National**  
ALUMINUM COOKER

—Domestic Science Demonstration on our 3rd floor.

## Gift Lingerie

—Where is there a woman who will not appreciate the appeal of adorable silk lingerie? All these varied lots present unusual opportunities for selection.
